Forecast For Highland & Eilean Siar
Issued by Met Office Aberdeen
at 0400 on Sunday 31 Oct 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Rain spreading northwards, with showers following to south later.

Today:
Area of rain with strengthening winds in Lochaber initially, extending northwards to reach the north coast by mid-afternoon, while scattered showers and brighter spells follow to southern and central Highlands late afternoon. Maximum temperature 11 deg C (52 deg F).

Tonight:
Showers dying away for most during the evening. Band of occasionally heavy rain in far north, returning across most from the west overnight, as coastal gales, perhaps severe gales, develop. Minimum temperature 3 deg C (37 deg F).

Monday:
Unsettled with showers or longer periods of rain, which become heavy at times. However tending to turn drier from mid-afternoon. Northwest winds strong to gale, perhaps severe gales, at first. Maximum temperature 11 deg C (52 deg F).

Outlook for Tuesday to Thursday:
A mix of showers and brighter spells with outbreaks frequent Tuesday, scattered Wednesday, isolated Thursday as pressure builds from the west. North to northwest winds strongest on Wednesday.
